STEP TWO:

On an external computer with Internet access, you now need to generate an 'Unlock Code'. You may even want to try to generate an 'Unlock Code' on a different PC in the same location first, as personal firewall settings can be different from PC to PC.

To generate your 'Unlock Code' for GTA IV PC, enter your **Product Code** (serial number) and **Unlock Request Code** (that you brought with you) in the fields provided below.

Click the 'Generate' button.

Your Serial is:
Your Unlock Request Code:
Your Unlockcode:

Once your 'Unlock Code' is generated, copy and paste it into a TXT file on the computer where you installed the game.

Once you have received the 'Unlock Code', return to the computer where you installed the game.

STEP THREE:

To complete your 'Activation', you may need to make an internet connection.

- Launch Grand Theft Auto IV.
- You will be prompted to connect to the internet, as you have not done so before.
- Enter these codes into the fields provided.
- Your game will be activated.

If you have any further questions or issues, please contact our support team. For more information, please see the description of the issue.

Manual Activation

An online activation cannot be performed. It is possible to perform an offline or manual activation. In order to perform this operation, you will need the following information:

- Registration Code (Serial number)
- Unlock request code (displayed below)

With this information in hand, please visit the following URL: <http://activate.rockstargames.com>

With the unlock code and serial (registration code) entered, click on the "Activate" button.

Activation successful

The activation has been successful.
